EXPERIENCE

Back-end lead developer/co-founder — *PrismLink,* Remote

MARCH 2018 - PRESENT

Leading the company's Node/MongoDB API and DevOps. Created the REST API and developed it to a full-featured product.

Back-end developer — *Coursio,* Sweden

FEBRUARY 2017 – MARCH 2018

Rebuild the company's infrastructure from scratch in order to meet new business requirements. Migrate the legacy PHP/MySQL back-end into a microservices-based Node/GraphQL infrastructure.

Web developer — *Flow System AB,* Sweden

JUNE 2015 - JANUARY 2017

Designed and implemented new features for a digital contracts WYSIWYG editor. Also co-led the main framework's migration from Backbone to React, and shaped the product's testing strategy.

Back-end developer — *Potentialpark,* Sweden

AUGUST 2012 - MAY 2015

Led the migration of the company's flagship product from Excel worksheets to a web full stack, creating new business opportunities and saving 4 months/year of the team's work time.

EDUCATION / CERTIFICATIONS

Toulouse Business School, Copenhagen Business School (Erasmus) — *Master of international business*

2008 – 2012

MongoDB Inc. — *MongoDB certified developer*

2015
